

NetWorks™ Stereo shown in Wenge/Gold

## NetWorks™ The NetWorks Radio with FM

### Classically styled. Technologically advanced.

Access thousands of crystal clear radio stations without the need for a powerful roof-top antenna or a technical background in shortwave. The NetWorks radio brings the entire world to your ears via wireless Internet or Ethernet connection.

With its dual independent alarms, Sleep, Snooze, and standard FM, our NetWorks radio is also a full-function alarm clock. Add matching components and turn your table radio into an entertainment system. A USB input is on-tap to plug-n-play music from your compatible MP3 player. You can also stream music files from your PC. The large display and included remote control let's you navigate the globe from the comfort of your favorite chair. Browse stations by country or genre, or directly input the station's call letters.

The NetWorks radio decodes MP3, WMA, and Real Audio (Version 6), and does so with superb sound quality. You'll be able to keep the NetWorks radio up-to-date with software updates, too. And set-up couldn't be easier...you don't even need a computer. Thanks to the furniture-grade wood cabinet, the NetWorks radio doesn't look like a computer.

Stay networked with Tivoli Audio's NetWorks radio.

Dimensions: 8.74"H x 5.51"W x 5.12"D  
21.8cm H x 14cm W x 13cm D
